Enthusiastic and Detail-oriented Full Stack Developer with 2 years of experience in building scalable, responsive web applications using React, Node.js, Express.js, and MongoDB. Eager to contribute to a tech-driven organization by enhancing user experience, optimizing performance, and growing within a dynamic team environment.

EXPERIENCE :-

1. Mentroz Private Ltd. - Software Developer (Sept 2023 - Currently)

- Developed and maintained full-stack web applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** for Mentroz's user-facing platform and company website.
- Built reusable, scalable front-end components with **React.js**, ensuring seamless integration with backend APIs and real-time data flows.
- Collaborated with cross-functional teams to implement features like **1-on-1 mentorship scheduling, career planning tools, and scholarship listings**.
- Wrote modular backend APIs using **Node.js and Express**, handling user authentication, mentor matching, and secure data transactions.
- Worked with **Figma** and modern design systems to translate wireframes into interactive front-end components.
- Managed code using **Git**, participated in code reviews, and followed Agile practices including sprint planning and daily stand-ups.

2. Tetra Trion Technology Private Ltd. - Android App Internship (January - May 2023)

- Collaborated on the development of cross-platform mobile applications using **React Native**, targeting Android devices with scalable, performant code.
- Integrated **RESTful APIs** and third-party libraries to enhance app functionality and deliver real-time data.
- Participated in the full app lifecycle including **UI/UX design**.
- Used tools like **Expo, Android Studio, VS Code**, and **Git** for efficient development and version control.

PROJECTS :-

1. Mentroz : Mentroz Career Counseling Platform offers a structured environment for individuals to receive one-to-one mentorship and personalized career planning support. Key features include mentor browsing, real-time session booking, scholarship, profile management, and tailored guidance to help users set and achieve their career goals.

2. RoutEasy : Commercial bus ticket booking Application. Which provides Travel experience for users, the Application offer a user-friendly user interface for Browsing schedules, Selecting seats and making secure payments and currently I'm still working on it in Frontend part.

3. Websites : I have completed many small projects like Registration form, Sign-Up page, Commercial shopping Pages and also many cards.

SKILLS :-

- **Programming Languages:** C language
- **Mobile development :** Android Studio
- **Tools & Platforms:** Git/GitHub, Postman, VScode, Figma, Chatgpt
